# CONTENTS

## No. 1

G. ALDERBORN and C. NYSTRÖM: Radial and axial tensile strength and strength variability of paracetamol tablets .....	1
K. MALMQVIST and C. NYSTRÖM: Studies on direct compression of tablets. Part VIII. A sieve classification method for the determination of agglomerates and the distribution of fine particles in ordered mixing .....	9
K. MALMQVIST and C. NYSTRÖM: Studies on direct compression of tablets. Part IX. The effect of scaling-up on the preparation of ordered mixtures in double-cone mixers .....	21
B. HOLMBERG, B. LINDBORG, R. DAHLBOM and S. B. ROSS: Cyclizing compounds. Part V. Tertiary haloalkylamine derivatives related to the tricyclic psychopharmacological agents promazine, imipramine and amitriptyline .....	31
B. BERGSTRAND: Aminolysis and hydrolysis of formanilide in water solutions. Part III. Influence of the ionic strength .....	43
B. BERGSTRAND: Aminolysis and hydrolysis of formanilide in water solutions. Part IV. Influence of a surfactive agent - hexadecylpyridinium chloride - on reaction rate .....	55
J. KLUNGSØYR and R. R. SCHELIN: Metabolism of piperonal and piperonyl alcohol in the rat with special reference to the scission of the methylenedioxy group .....	67
G. WEERATUNGA, L. BOHLIN, F. SANDBERG and V. KUMAR: A muscle-relaxant catechin derivative from <i>Elaeodendron balae</i> (Celastraceae) .....	73
M. L. GO and S. L. LEUNG: The synthesis of 5-methyl-2-furylacetic acid. An alternative route .....	77

## No. 2

L. WEIDOLF and K. O. BORG: Physico-chemical properties of urinary metabolites of felodipine, a new vasodilator drug. Part I. Acid dissociation and distribution constants of three ampholytic metabolites .....	81
D. WESTERLUND, J. CARLQVIST, M. OVESSON and B. G. PRING: Application of the combination radioactivity detector - liquid chromatography to a study of the metabolism of bacmecillinam in the rat .....	93
B. ÅKERMAN and U. H. LINDBERG: Potential antiarrhythmic agents. Part I. Antiarrhythmic activity of basic <i>N</i> -( $\alpha,\alpha$ -dimethylbenzyl)acylamines .....	103

A. THALÉN, R. BRATTSAND and E. GRUVSTAD: Synthesis and pharmacological properties of some 16 $\alpha$ , 17 $\alpha$ -acetals of 16 $\alpha$ -hydroxyhydrocortisone, 16 $\alpha$ -hydroxyprednisolone and fluorinated 16 $\alpha$ -hydroxyprednisolones	109
J.-O. WALTERSSON and P. LUNDGREN: Studies on light protection of packaging materials – a kinetic approach	125
G. WEERATUNGA, A. GOONETILEKE, W. ROLFSEN, L. BOHLIN and F. SANDBERG: Alkaloids in <i>Strychnos aculeata</i>	135
G. RAGNARSSON and J. SJÖGREN: The influence of die wall friction on the tablet porosity – compaction load relationship	141

### No. 3

A. THALÉN and L.-I. WICKSTRÖM: Synthesis and structure elucidation of 6 $\alpha$ - and 6 $\beta$ -hydroxylated budesonide and related corticosteroids	145
L. H. LAJUNEN, H. ROUTSALAINEN, U. TURPEINEN, S. PARHI, K. KURKELA and A. KARJALAINEN: The structure, protonation and thermal behaviour of 4(5)-(2,3-dimethylbenzyl)imidazole (detomidine) hydrochloride monohydrate	163
K. ROLKA, M. KRUSZYNSKI, G. KUPRYSZEWSKI, U. RAGNARSSON, K. KOLASA, W. TURSKI and Z. KLEINROK: Opiate-like peptides. Part VI. Synthesis and analgesic activity of four enkephalin analogues with C-terminal methylthioamide groups	173
E. EHRIN, P. JOHNSTRÖM, S. STONE-ELANDER, J. L. G. NILSSON, A. PERSSON, L. FARDE, G. SEDVALL, J.-E. LITTON, L. WIDÉN and T. GREITZ: Preparation and preliminary positron emission tomography studies of <sup>11</sup> C-Ro 15-1788, a selective benzodiazepine receptor antagonist	183
P. JOHNSTRÖM, E. EHRIN, S. STONE-ELANDER and J. L. G. NILSSON: Synthesis of <sup>11</sup> C-labelled D- and L-methionine for positron emission tomography. Investigation of the enantiomeric purity of the products	189
P. PERERA, F. SANDBERG and R. VERPOORTE: Variation in alkaloid content in the leaves of <i>Tabernaemontana dichotoma</i> , from different collection sites	195
R. C. ROWE: The measurement of the opacity of tablet film in coatings <i>in-situ</i>	201
A. GRINGAUZ: <i>p</i> -Acetamidophenyl 2'-acetoxybiphenyl-2-carboxylate. A benorylate analog	205
U. PAULSEN-SÖRMAN: $\alpha$ -Substituted 2-phenylethylamines and <i>N</i> -oxidized congeners. Chemistry, metabolism and ligand interactions with cytochrome P-450	207
K. MALMQVIST: Studies on the characterization of powders and powder mixtures	208

## No. 4

L. WEIDOLF, K.-J. HOFFMAN, S. CARLSSON and K. O. BORG: Synthesis and preparative liquid chromatographic purification of reference compounds of three metabolites of the vasodilating drug felodipine .....	209
P. O. EDLUND, D. WESTERLUND, J. CARLQVIST, B.-L. WU and Y. JIN: Determination of artesunate and dihydroartemisinin in plasma by liquid chromatography with post-column derivatization and UV-detection .....	223
H. NYQVIST and T. WADSTEN: Charge in surface area of zimeldine dihydrochloride hydrate on storage .....	235
H. NYQVIST: Light stability testing of tablets in the Xenotest and the Fadeometer .....	245
M. HAMMARLUND: Absorption and disposition of furosemide and its influence on the diuretic effect .....	253
B. BERGSTRAND: Kinetic studies of the hydrolysis and aminolysis of formamides in water solutions .....	254
C. PETERSSON: Separation of enantiomers in ion-pair chromatographic systems .....	255
A. GRAHNÉN: Pharmacokinetic strategies of drug control in Sweden. Principal aspects with special emphasis on bioavailability .....	256

## No. 5

A. WÄGNER: Crystal structure of a hypolipidemic agent: 2-(6 <i>H</i> -dibenzo[ <i>b</i> , <i>d</i> ]-4-pyranyloxy)-2-methylpropionic acid .....	257
N. E. STJERNSTRÖM and A. WÄGNER: Potential hypolipidemic agents. Part XXI. Stereochemistry of 2-(4-dibenzofuranyloxy)-2-methylpropionic acid and related compounds .....	265
B. LINDBORG, K. CRONA, R. DAHLBOM and S. B. ROSS: Troxonium-like inhibitors of the high affinity uptake of choline in mouse brain synaptosomes <i>in vitro</i> .....	271
K. GUSTAVII and A. FURÅNGEN: Extractive alkylation of organic acids. Part VII. Kinetic studies on the alkylation of carboxylic acids .....	295
J. L. G. NILSSON, J. HERMANSSON, U. HACKSELL and S. SUNDELL: Promethazine - resolution, absolute configuration and direct chromatographic separation of the enantiomers .....	309
N. AL-ANI: An experimental study of the complexation between Cu(2+) and some $\alpha$ -amino acids with emphasis on stereoselective effects .....	317
H. BOSTRÖM: Multiple forms of cytochrome P-450 in biosynthesis of bile acids .....	318
	381

I. KALLES: Isolation of cytosolic and microsomal proteins modulating hydroxylase activities in bile acid biosynthesis .....	319
A. NEIL: Studies on action mechanisms of some common opioid analgesics ....	320

## No. 6

G. RAGNARSSON and J. SJÖGREN: Compressibility and tablet properties of two polymorphs of metoprolol tartrate .....	321
L. WEIDOLF and K.-J. HOFFMAN: Physico-chemical properties of urinary metabolites of felodipine, a new vasodilator drug. Part II. Lactone kinetics, acid dissociation and distribution constants of two hydroxycarboxylic metabolites .....	331
A. FURÅNGEN and K. GUSTAVII: Extractive alkylation of organic acids. Part VIII. Kinetic studies on the extractive dialkylation of some phenolcarboxylic acids .....	345
M. OTAGIRI, K. UEKAMA, T. IMAI, T. MAEDA, A. TAKADATE, S. GOYA and L. H. M. JANSSEN: Comparative study on inclusion complexation of $\beta$ -cyclodextrin and tri- <i>O</i> -methyl- $\beta$ -cyclodextrin with several drugs in aqueous solution .....	357
H. NYQVIST and M. NICKLASSON: Prediction of light-induced discoloration of tablets from accelerating test conditions by means of numerical convolution .....	367
L. ANDERSSON and L. BOHLIN: Studies of Swedish marine organisms. Part III. Procedure for the isolation of the bioactive principle, histamine, from the red alga <i>Furcellaria lumbricalis</i> (Huds.) Lamour .....	373
